

Heat Pumps

Learn How to Heat and Cool Your Home Efficiently

Presentation by: Ian Shapiro, Associate Director of Building Science and Community Programs, Syracuse University Center of Excellence in Environmental and Energy Systems

**Tuesday, March 11th, 2025
6:00pm - 7:30pm
Fayetteville Free Library
300 Orchard St. Fayetteville or
Via Zoom Link**

Join us for some interesting and helpful information on the growing technology of Heat Pumps from their history to their efficiency, cost of operation and health benefits.

Ian is a recognized expert on heat pumps in their design, research, and theory, and has received patents relating to heat pumps and air conditioning. He also has been using a heat pump for five years.
